2030

SPECIAL HIGHLIGHT

Launch of India RunFree2030

On 12th June 2024, **CURE India, in collaboration with the Ministry of Health and Family Welfare**, proudly launched the transformative campaign, "RunFree2030". The event was graced by the esteemed **Shri Apurva Chandra, IAS, Secretary, Ministry of Health & Family Welfare**, who inaugurated the campaign with an inspiring speech. He emphasized the collective responsibility to eliminate clubfoot disability in India, underscoring the critical role of partnerships and community efforts in achieving this goal.

The launch also witnessed the enthusiastic participation of key dignitaries. Ms. Aradhna Patnaik, IAS, Additional Secretary and MD, NHM, Govt. of India, and Ms. Meera Srivastava, IRS, Joint Secretary, RCH, NHM, Govt. of India, reiterated their unwavering support for the campaign. Their speeches highlighted the importance of early detection and timely intervention in managing clubfoot effectively, ensuring every child receives the opportunity to walk and run freely.

Adding to the momentum, Dr. Shobhana Gupta, Deputy Commissioner, Child Health & RBSK, Govt. of India, reinforced the significance of collaborative efforts in expanding access to treatment. The campaign's vision and objectives were passionately articulated by Dr. Mathew Varghese, Chairman, and Dr. Santhosh G, Director of CURE India, inspiring everyone present to unite for this ambitious mission.

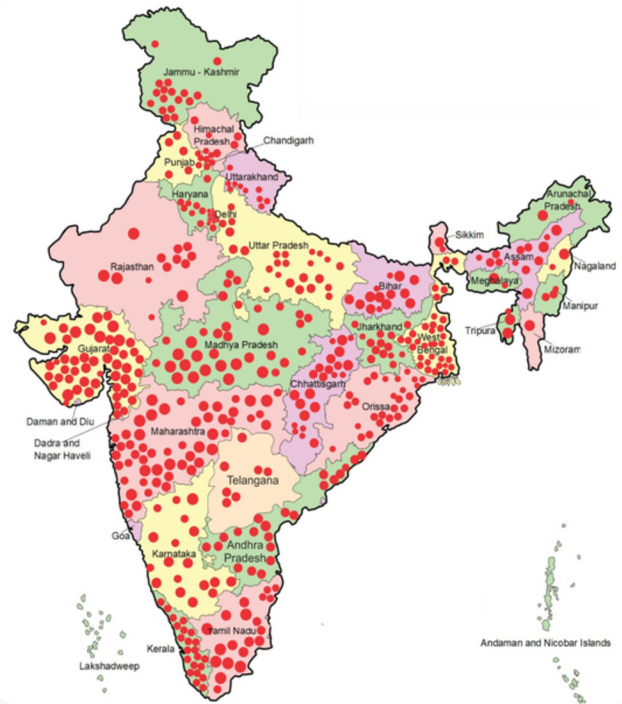

The "**RunFree2030**" campaign represents a beacon of hope and determination, charting the path toward a future where no child in India is left untreated for clubfoot by the year 2030!
